

## DC5x / Touch Screen Computer

### Features:

#### EW-DF3d

- Quad-core ARM-based microprocessor.
- Mission-critical high reliability software design.
- Advanced cybersecurity compliance.<sup>1</sup>
- Super high brightness display for true sunlight readability.
- High durability projected capacitive touch interface works with gloved hands.
- Records still images and full-motion video.
- Simplified user interface.
- Low power consumption maximizes system operating time.
- Wide range of battery power options.

<sup>1</sup>Certain jurisdictions subject to export license requirements.

### Specifications:

CPU:	1GHz quad-core ARM processor
Storage:	Removable 128Gb Micro-SD
Still Image Recording:	JPEG
Full Motion Video Recording:	h.264 (MPEG4)
Data Security:	USCERT (ISO/IEC 2700x) compliant
Display Resolution:	1280x800 (720HD)
Display Interface:	10-point projected capacitive touch
Display Brightness:	1275 NITS
Display Controls (On-Screen):	Contrast, brightness, colour, backlight, image flip (mirror)
Power Options:	LION rechargeable battery pack NiMH rechargeable battery pack AA disposable battery x6 (Energizer Ultimate recommended) Lithium DL/CR123 disposable or rechargeable x4
Environmental:	IP67
Operating Temperature:	-30C - +70C
Storage Temperature:	-40C - +80C
Dimensions (LxWxD)	192mm x 137mm x 49mm
Weight:	800g
